\$4 prescription

(30-day supply)

\$10 prescription

(90-day supply)

REIMBURSED AT 100%

Did you know that many pharmacies offer the \$4 generic drug program?

If you have prescription drugs to be filled, **CHECK THIS OUT.**
This is a savings to YOU and your health plan.

Take your prescription to your pharmacist and ask if the drug is available on the list of \$4 generic drugs. If the prescription is on the list of approved generic drugs, simply ask the pharmacist to run your prescription through the as a cash payment and **DO NOT** use your insurance card.

If you purchase a drug from the \$4/\$10 approved list and pay cash at the time of purchase, send your receipts to Dunn & Associates and your health plan will reimburse you 100%.

For participating pharmacies and drugs please visit www.medtipster.com.
